

City of Newport Beach Bicycle Master Plan Fact Sheet

About the Bicycle Master Plan

Newport Beach is a great place to ride a bicycle. The weather is mild and our bikeways offer some of the most beautiful views in Orange County.

The Bicycle Master Plan will be used as a guide for how we can make bicycle rides even better in Newport Beach, and encourage more people to enjoy biking—whether you're out for a cruise along the beach or the Back Bay, climbing the hills of Newport Coast, using a bike for your everyday trips, or biking to work.

The following topics are expected to be addressed in the plan:

- Bikeway locations and design
- Bike parking and other support facilities
- Themed directional "wayfinding" signs on bikeways
- Education and encouragement programs
- Traffic enforcement
- Evaluation of progress over time

Development of the Bicycle Master Plan is guided by a Bicycle Master Plan Oversight Committee appointed by the City Council. All committee meetings are open to the public, and some of the meetings will be interactive workshops where community members can provide input through activities and discussions.

Get Involved!

Do you have something to say about bicycling in Newport Beach?

- Take an online survey: www.surveymonkey.com/s/NBbikeplan
- Attend a community workshop or a Bicycle Master Plan Oversight Committee meeting.
- Sign up for email updates about upcoming workshops and other project news by visiting the Bicycle Master Plan webpage at www.newportbeachca.gov/bicyclemasterplan
- Contact the City with questions or comments:
